Front-End Developer

Front-End Developer passionate about building modern, responsive, and user-friendly websites. I have hands-on experience developing web interfaces using HTML, CSS, JavaScript, Typescript, React, Next.js, and Tailwind CSS. I focus on writing clean and well-structured code, creating responsive layouts, and delivering intuitive user experiences across different devices and screen sizes. I enjoy learning new technologies, improving my development skills, and turning ideas and designs into functional, high-quality web applications. I am motivated to gain real-world experience, work on challenging projects, and continue growing as a professional Front-End Developer.

Experience

Front-End Developer — Personal Projects
2025 – Present

- Developed responsive and user-friendly web interfaces using HTML, CSS, JavaScript, Typescript, React, Next.js, and Tailwind CSS.
- Built responsive layouts that work across desktop, tablet, and mobile devices.
- Created reusable UI components and organized code using modern front-end development practices.
- Focused on clean code, usability, accessibility, and consistent user experience.
- Used Git and GitHub for version control and project management.
- Continuously improved projects by learning new technologies and applying modern web development techniques.
